This paper on file at all the Principal Newspaper Agencies in San Francisco and Eastern Cities.
C. C. Duke, 65 Merchants' Exchange, is our special San Francisco Agent.
Rates, 41 Park Row, will act as our New York Agent.
P. Fisher, 21 Merchant's Exchange, San Francisco, will have the HERALD on file and solicit business.

No person is authorized to do business in any way for this paper whose name is not here announced as our agent. We have no traveling agents

THE leading citizens of Prescott have done a very becoming thing in passing a very complimentary set of resolutions and asking for the reappointment of Chief Justice French by the President, without regard to political inclination, but as a wholly unmerited people.

The case of Althea Hill who attempted to show herself a frail and feminine for the purpose of getting the fat purse of Senator Sharon has collapsed. She succeeded in proving but one thing which is that she is a strumpet and blackmailer. Her council attempted to withdraw the suit.

LATEST reports from the cotton crop of the southern states indicate that there will be a large falling off in that production this year which will have the effect to increase the price greatly. In 1866 cotton was worth 28 cents per pound and on many occasions ranges from 20 cents to 25 cents.

THE circumstance provided for in the new railroad arrangement that change of passengers from the Atchison, Topeka & Santa Fe road to the Atlantic & Pacific will ultimately take place at Albuquerque, though at present the change is from the A. & P. to S. P. at the Needles looks as though the S. P. folks were ultimately to control the A. & P.

A PIECE has been going the rounds of the press, stating that the Arizona & New Mexico railroad has been attached; which is untrue, and it is intended to convey a wrong impression in regard to the owners of the road. Now, we state most positively that the road has never been attached and that all the contractors either been paid or satisfied, or that save the bonds the road is free from any unusual indebtedness. *Flagstaff Advance.*

The mining companies of this Territory owe their prosperity to the unrequited efforts of the local press and special press more than to any other thing are very slow to recognize the chief source of their success and prosperity, and now practically ignore the very means which have made them what they are. A day may be near at hand when they will gladly recognize this staff of strength which they have so carelessly thrown aside, and if so, it is to be hoped that their appreciation and recompense will in some measure correspond with the benefits received.—*Mining Review.*

Add the five or six counties of Southern California south of the Mohave desert to Arizona and call it the State of Arizona.

With Arizona and Southern California consolidated, with Los Angeles the metropolis, San Diego, San Pedro and Santa Barbara as seaports the New State of Arizona would be a daisy.—*Santa Barbara Independent.*

We don't see what advantage such a consolidation would be to Arizona We are large enough and rich enough to stand on our own pins as a state and are in no wise particularly desirous of being gobbled up soul and body by Los Angeles and her backers. We have no objection to Southern California becoming a state at the earliest opportunity with Los Angeles as the capital and metropolis, the center and circumference of business and government of all that section of country, but we do object to being dumped into the pile as a port of filling. Arizona don't propose to play second fiddle for any section of country, but in the near future she will wave the baton of commercial enterprise and business herself.

DURING the late campaign in Ohio the Democrats of the eastern district whereased and resolved as follows.

Whereas, The Republican journals of this district continually and falsely claim that the Democratic party is a free trade party;

Resolved, That the Democrats of this district in convention assembled, hereby declare in favor of a high protective tariff, believing that the best interests of the laboring classes and the general prosperity of the country will be best promoted by preserving the competition of foreign labor.

[illegible] that the apostle of [illegible] Waterson, needs [illegible] work in that [illegible] curely corral it in his corner of the Democratic fold. The fact is that the heavy iron manufacturing interests of that section of Ohio will stand a great deal of noisy hammering by the Louisville champion before he can make a free trade boiler out of it and should he ever succeed the joints will hiss in spite of skill and the whole affair will be ready to burst on slightest provocation. When no great moral and social principle is at stake men vote in the direction of their legitimate business interests and are justified in pursuing such a course.

Arizona Minerals.

One of the most complete exhibits shown at the Chicago Exposition is that which represents the mineral resources of Arizona, under the charge of Messrs. Murphy and Gray, who are thoroughly devoted to their business and deserve credit for the able manner in which they present the many advantages of Arizona as a mineral bearing territory.

This representative collection of mineral is in every respect the finest display of the kind ever presented in Chicago, and is attracting attention from a class of people who will doubtless manifest their interest in a practical manner.

These carefully selected specimens of ore represent seventy five districts and over eight thousands different mines, and will do more to present the attractive features and substantial character of the mineral wealth of Arizona Territory than any movement that has been inaugurated The advantage of this step has already been recognized, and a recent number of the *Tradesman*, of Chattanooga, Tenn., commends the project as one admirably fitted to accomplish the object desired.—*Mining Review.*

THE cultivation of cotton is an industry which ought to find an important place in the industries of the Salt Riyor valley. Our soil and climate are finely adapted to its production. In Georgia it is successfully produced at much higher latitudes than ours which is about 23 degrees north, and in California is successfully grown in the Merced valley in latitude 37 degrees north. It ought to be even more successfully cultivated in the Salt River and Gila valleys than in the Southern states where no system of irrigation is in use and where drought not infrequently cuts short the crop or entirely destroys it and where late and early frosts leave a much smaller portion of the summer free from their blighting influence.

As to the cost, products, and profits of cotton growing there is a wide difference in different sections of the cotton growing belt owing to the condition of the land, manner of cultivation etc. On the worn out lands of the old slave states the average yield is about 150 pounds of lint per acre while on lands that are highly cultivated or new as much as 2,000 pounds per acre has been produced. Under existing conditions here we might reasonably expect to have a lint proeuct of 1,000 pounds to the acre which at the average price would be worth $150 which would leave a clear profit of $50 per acre counting hired help, interest on money invested in teams, utensils and land, according to a large number of estimates before us made by practical cotton growers who make the average cost per pound about ten cents including all items we have mentioned.

As to market we have one which we can command, one that is much nearer to us than Massachusetts or New Hampshire are to Alabama and Georgia; we refer the extensive mills that will soon be put up and which are now under way on the east side of San Francisco Bay south east of Oakland where a company which has put $600,000 into the enterprise have purchased an extensive tract of land along the railroad This company proposes to draw their supply of cotton from Texas so far as they shall need more cotton than can be procured in California. If Arizona can come into the market with a cotton product she will be nearer this new cotton market than any other cotton producing region outside of California, and would doubtless find an eager demand for all she might produce for she ought to put cotton into the San Francisco market at less cost than any point south and east of us. Our legislature last winter offered a premium to Salt River valley farmers for the production of cotton and we understand some of them have planted small crops but we have not yet learned the result as to yield, cost etc.

As to its flourishing here there is no do[illegible] of the favorable c[illegible] shap[illegible] ou[illegible] f[illegible]

never to surrender the whole farm to any one crop. Long since, the theory and practice of farming has demonstrated that more money is to be made in variety of crops than by the cultivation of any one crop. At any rate it is a business proposition to raise such crops as will yield the greatest net income per acre. If we can make five or six times as much clear money from fruit, sugar, cotton and the like, it stands to reason that we should leave grain raising to those sections of country that cannot produce better paying crops. Grain sufficient for our own use is all that we can afford to raise so soon as our lands can be put to use in the production of cotton, fruit and sugar each or any one of which will bring to the rancher more ready cash per acre than ten times the amount of wheat or barley.

TELEGRAPHIC.

DEATH OF GENERAL STEDMAN.

TOLEDO, Ohio, Oct. 19.—General Jss. B Stedman died here this afternoon of pneumonia after a protacted illness. The deceased was a prominent officer during the rebellion, and was made Major General in consequence of bravery at Chickamauga.

IN 2:11 BEST HEAT.

CHICAGO, Oct. 19.—The New York Tribune's special of October 16th says: Title, a horse heretofore practically unknown, trotted two heats to-day with runnning mate, first heat in 2:16; second 2:11. The horse was formerly from Boston named Francis.

AN INTERVIEW WITH THE PRESIDENT.

CHICAGO, Oct. 19.—A Washington special says: C. P. Huntington called on the President last night in relation to the appointment of commissioners to examine and report upon the completion of the Southern Pacific road from Fort Wayne to El Paso. The Atlantic report tonight is that Huntington's mission was not successful, the President hesitating to assume the responsibility of appointing the commissioners which would in effect amount to an Executive decision that the Southern Pacific is a land grant road. The result of this will be to lay the whole case before Congress which it is understood the President has decided to do without special recommendation.

RAILROAD STRIKERS.

ST. LOUIS, Oct. 19.—The latest information regarding the strike is that the railroad managers will not take back the strikers; that there is a fair force of men working in all the yards and that trains are moving reasonably well, and everything will be running as usual in a day or two.

EARTHQUAKE.

CONSTANTINOPLE, Oct. 19.—Among the villages destroyed by the earthquake in Grecian Archipelago were Katoponoya, Reis de re and Lidia. Slight shocks are still felt on the island of Chios. Another dispatch says it is believed that only 200 deaths were caused by the earthquake.

ATHENS, Oct. 19.—The government has sent two ships to Grecian Archipelago with supplies for the sufferers by the earthquake; 1,210 bodies were discovered near Chesme in Anatome. The earth near Atlatea is literally swallowed up houses and people.

SAN FRANCISCO.

SAN FRANCISCO, Oct. 19.—The Examiner says it is understood that John Foley will be elected commissary of the San Quentin Prison by the directors, and that McAllister will be appointed captain of the yard; John McComb will be probably retained warden of Folsom prison, but there will be democrats appointed to other positions.

The case of Mrs. Elsebia Fitzgerald against the estate of the late General William Irvine for $2,500, claimed she loaned to the General during his life time, has been decided against her. At the close of the arguments, the scene was enlivened by the counsel for the plaintiff denouncing one of the lawyers for the defense as a robber, a liar and perjurer. The defense responded by saying that the plaintiff's witnesses were no better, calling them perjurers and liars.

Edward Hyam, against whom judgment for for $78,000 was obtained a few days ago by Shainwald & Co., was arrested yesterday evening at Elko, Nev. Shainwald having sworn out a complaint that Hyam was fraudulently carrying away his property to cheat his creditors.

A chicago special says that arrangements will probably be made to continue Villard as president of the Northern Pacific for another year, although there are strong objections made to him by Drexel, Morgan & Co. who made it at first a condition if the syndicate took up the 20 million in second mortgage bonds, Villard should resign and A J. Cassat, vice president of the Pennsylvania road, be appointed.

VILLAINEOUS OUTRAGES.

SAN FRANCISCO, Oct. 20.—The Examiner this morning publishes the result of an investigation which will probably bring to light one of the most villainous of the long list of outrages lately committed in this city on helpless women and children, Last Tuesday morning an account of an inhuman assault perpetrated on a four year old daughter of John Kehoe was published in the newspapers. A young butcher by the name of John Floody was arrested, charged with the crime. The girl was shrouded with suspicious circumstances, she having complained of pains in her back and hips, although treated for typhoid fever. After the burial stories began to circulate, and now two neighbors Mrs. Berry and Mrs. Kehoe, who arranged the body for burial come forward and state that they saw marks which led them to believe an outrageous crime had been committed and which was probably the cause of the child's death. They said nothing to the parents, wishing to spare them additional pain, but when Mrs. Kehoe, on her return from the funeral, learned of the assault upon her own four-year old daughter, she disclosed her suspicions to the parents of the dead child; filled with horror, Mr. Pletency was about to report the matter to the chief of police and ask that the body be exhumed, but, whether or not from feelings of respect for his dead child's remain, he concluded to let the matter rest. Hopes are entertained that the police will follow it up for these numerous ourages have produced a feeling of dread among mothers of children, throughout the city.

CHARGED WITH OUTRAGE.

SAN FRANCISCO, Oct. 20.—John Murphy, George Debree, Charles McDermott and Albert Heagle have been arrested. Today it was brought to light that an attempt was made by them to outrage Mrs. M. McCullough on Monday evening last. The prisoners were charged with battery only by the arresting officer.

'FRISCO MATTERS.

SAN FRANCISCO, Oct. 20.—The Alta pointedly remarks that before the Northern Pacific was opened all immigrants arriving were bound for Oregon and Washington Territory, whereas now that it is opened many of the immigrants arriving at Portland are bound for San Francisco.

The news have been received of the death of Pedro Mezzara, a well known sculptor, and for years a resident of this city. He died in Paris on the 5th of September. Among his works in this state are the Lincoln statue on the Lincoln grammar school and statuary on the state capitol at Sacramento.

At a meeting of a State Central Council of the Union Veteran Democratic Legion a resolution was adopted authorizing Commandor Store to appear before the board of directors of the Home Veteran Association and there to represent the legion on a proposition to disincorporate the life directory and to hand back the estate of the State encampment G. A. R.

MORE EARTHQUAKES.

LONDON, Oct. 20.—Three shocks of earthquake in quick succession were felt at Braleur shortly after midnight; another at two this morning in the direction north to south

THE NEW CHAPLAIN TO IMMIGRANTS.

CHICAGO, Oct. 20.—A New York correspondent telegraphs that Rev. John J, Riordan, the newly appointed chaplain to immigrants landing in this city, will leave Monday for Chicago to meet Bishop Riordon of San Francisco: he will then meet Bishop Ireland at St. Paul, Minnesota, and Bishop Shelding, of Peoria, to consult them in regard to the settlement of immigrants in the west and northwest. He will establish immigrant mission in the vicinity of Castle Garden.

THE ORANGEMEN.

LONDON, Oct. 22.—Lard Rossmore as grand master Orangemen says, if the government allows disloyal meetings to continue in Ulster that the restraint of Orangemen cannot be relied on; that there will be bloodshed or perhaps civil war.

RACE FOR $2,000.

PORTLAND, Oregon, Oct. 22.—The foot race between Kittleman, claiming to be the champion of the United States, and Martin, a celebrated local runner, for two thousand dollars a side; distance 100 yards, took place yesterday afternoon and resulted in a victory for Kittleman; time 9¾ seconds.

MORE GUAYMAS.

SAN FRANCISCO, Oct. 22.—Albert F. Andrade, Mexican General, who has arrived here by rail from Guaymas, says the yellow fever is still prevailing in that city, notwithstanding all reports to the contrary, and that it continues to be of a most virulent type. Mr. Andrade left Guaymas six days ago. Colonel Correa, of the Mexican army, was among the latest victims. The fever is said to have been brought to Guaymas from Panama by a family named Fonzerado, one of the members of it having died a few days after landing at Hermosillo. Over 700 deaths have been reported, and the fever is still raging with most fatal results.

THE REASON WHY.

WASHINGTON, Oct. 22.—Secretary Chandler has written Commander Wilde, of the steamer Yantic, asking for a report of the failure of the expedition for the relief of Lieutenant Greely: "It appears to the department that you disobeyed orders, and thereby defeated the abject of the expedition. You will make such explanation on this point as you are able." To this Commander Wilde replies that the boilers of the Yantic were in an unreliable condition when ordered to fit out for the northern cruise, and that this prevented him reaching the north at the appointed time.

SKIPPED.

EL PASO, Tex., Oct. 22.—Advices by special courier from Corralitos just received announce that the Indians have skipped by the Mexican troops and left Casas Grandes. In what direction is unk[illegible] is reliable; ther[illegible] fight with t[illegible] street but t[illegible] left Symons to do all the work himself, this is understood to be the cause of his removal.

NOT IN MASSACHUSETTS.

SAN FRANCISCO, October 22.—Chicago Tribune's Boston special says: The political canvas is getting very warm. Robinson and Butler are each making two and three speeches a day; special trains are being engaged to allow them to cover the various towns and cities. Both indulge in personalities; both claim victory as assured. Butler still clings to the story that the tanning of human skins is an industry in Massachusetts and on Friday sent a man before the United States Senate Committee to testify to that effect

FIRE.

ANNAPOLIS, Oct. 22.—Basil's block near market street, is ablaze. It contains the largest business houses in the city. It is thought two or three persons are burned to death. The Mayor telegraphed to Baltimorf for aid.

STOCK PANIC.

NEW YORK, Oct. 22.—There is now a regular bear panic and dealings are attended with great excitement. Since noon the market beamed with more rapid advance in prices than any previous time today. The great feature being the Oregon Transcontinental, which on enormons dealings rose from 41⅞ to 46⅛ It is currently reported that prominent operators are selling Northern Pacific and buying Oregon Transcontinental. The latter stock is in position to be cornered, owing to the heavy outsanning short interest. The Northern Pacific jumped to 31¼ and preferred to 72½ cash, and 70 regular; Oregon Navigation is up to 110; New York Central to 116; Union Pacific to 89⅛.

YELLOW FEVER.

GUAYMAS, Oct. 22.—The steamer Sonora, Capt. Rodi, arrived last night and brings sad news from the lower coast. Mazatlan is hurrying from five to seven per day. The disease, for it is now pronounced to be very different from yellow fever has reached the interior and its ravages are even worse than on the coast. The Sonora tried to enter Mazatlan but they would not permit her. Deaths to the amount of 300 are reported in population of not over 1,200. Some later particulars of the disease at Altata are received; only a few houses are left; some 70 persons have perished, and no debut more, in the interior. At Culiacan the cane plantation of Don Joaquin Redo was almost entirely destroyed. The mills, both cotton and sugar, sustained severe damage. The country along the borders of the Culiacan river has been flooded resulting in great loss of crops and stock. The channel of the harbor on the inside bay at Altata has changed entirely.

In Guaymay only one death was reported yesterday, but some few cases always among new comers. Unless it is absolutely necessary it is not safe to come to Guaymas until after the first of November at least.

THE HOSTILES.

FORT BOWIE, A. T., via Wilcox, Oct. 22.—Two Indians from among the hostile Chiricahuas came into this post to-night A party will go out in the morning under Lt. Hunter and Lt. Dugan with supplies to meet the band. There is no good interpreter here, but from what can be understood from the two Indians that came in, there are about ninety warriors in the camp, under four chiefs. They will probably reach Camp Rucker tonight.

It is understood that the Indians near this place are those who have been in the vicinity of Casas Grandes and having gathered the scattered bands are coming in in a body to give themselves up. There being no interpreter here, it could not be learned what chiefs were at the head but it is believed that they are the leaders of the hostile Chiricahuas.

The opinion prevails, with some, that this party is the advance guard of a still larger body yet to come in case these get through without being attacked.

GUAYMAS NEWS.

GUAYMAS, Oct. 22.—On the preliminary examination of Ries who was incarcerated on Sunday last, as being the party who attempted the assasination of his wife, Franco, sufficient proof was produced to criminate him. The woman is not dead yet, but in a precarious state. He has ill treated her for a long time and often threatened to kill her. His reputation is bad.

Guaymas was quite elated today by the arrival here of the Governor and General Carbo, and of course the music will come with them.

One of the sailors on the Hespian was taken sick of fever and ordered to the hospital today. There has been only one burial in the last 48 hours; one locomotive engineer is sick at the hospital; severe comments are made here by the publication in Tucson of a letter from Samuel Brannan to W. H. Scott containing some threats and a mass of falsehoods.

Captain Rohde of the steamer Sonora, reports the partial loss of two barges in the late storm at Mazatlan bound for Altata with two passengers, a full cargo and five persons as a crew.

Weather here is delightful and the reports are of frost at Magdalena and in the outskirts of Hermosillo.

FIRE TO A SYNAGOGUE.

BERLIN, Oct. 23.—After a trial which caused much excitement, two Jews were convicted at Cashn Pomerania, of setting fire to the syna[illegible] to obtain the [illegible] and [illegible] immense resources of the United States.

Speaking of the refusal of the Northern Pacific Railroad to have anything to do with the special contract system, the Call says a circular has been issued bearing the signatures of all the railroad companies, with the exception of the Northern Pacific, addressed to the merchants of the Pacific coast. The circular is to the effect that if the present rates of fares and freights should be cut by the Northern Pacific, or if that company should offer to shippers rates lower than those named in the contract, then such cuts or reductions will be promptly met by all the other companies, and that no rate can be made so low by the Northern Pacific but it will be immediately followed by other lines. If the Northern Pacific does not at the meeting to take place in Chicago on the 31st come to terms with other roads the fight may be expected to begin on November 1st.

COLORED PEOPLE.

WASHINGTON, Oct 23.—Three thousand colored citizens gathered in a mass meeting last night. Fred Douglas and other prominent colored citizens were present, and passed resolutions denouncing the Supreme Court decision on the Civil Rights bill, and that the republican party should be held to the enforcement of its demands, and the democratic party should be reminded of its declaration in its national convention of 1872, and that the paramount duty of the colored men was to support such party as would protect them in their manifold rights.

The Girls.

The *Miner's* young man has got off the following and at last accounts he was lying very low but it was thought that a dose or two of bug juice might save his life:

A good girl to have—Sal Vation.
A disagreeable girl—Annie Mosity.
A fighting girl—Hittie Maginn.
Not a Christian girl—Hettie Rodoxy.
A sweet girl—Carrie Mel.
A very pleasant girl—Jennie Rosity.
A summer girl—Helen Blazes.
A sick girl—Sallie Vate.
A smooth girl—Amelia Ration.
A seedy girl—Cora Ander.
One of the best girls—Ella Gant.
A clear case of girl—E. Lucy Date
A geometrical girl—Polly Gon.
A flower girl—Rhoda Dendron.
A musical girl—Sarah Nade.
A profound girl—Mettie Physics.
A star girl—Meta Oric.
A clinging girl—Jessie Mine.
A nervous girl—Hester Ical.
A muscular girl—Callie Sthenics.
A lively girl—Annie Mation.
An uncertain girl—Eva Nescent.
A sad girl—Ella G.
A serene—Mollie Fy.
A great big girl—Ellie Phant.
A warlike girl—Millie Tary.
The best girl of all—Your Own.
A Northern girl—Minne Sota
A good girl to squeeze—Flori Da.
An Arizona girl—Minnie Rology.

School Report.

Following is a report of District School No. 7, (Wilson district) for the month ending Oct. 19th, 1883:

School opened with 15 pupils and increased to 36. Total days of attendance 500; days absence 20; average daily attendance 25; pupils neither absent or tardy 12.

F. STANTON
Teacher.

Power of the Imagination.

That imagination may prove fatal receives fresh proof from "a case of fatal shock from supposed snake bite," reported recently in the *Medical Press* by Dr. C. R. Francis. The patient, awakened from his sleep by something creeping over his naked legs, immediately jumped to the conclusion that it was a crobra, went into a state of collapse and died, though it was discovered, even before death, that the supposed cobra was a harmless lizard. There is no doubt but that a very large portion of the sickness and death of adults might be warded off by a proper and determined exercise of the will power. *Hall's Journal of Health*, in dwelling upon this subject, remarks as follows: To regain or recover health, persons should be relieved from all anxiety concerning diseases. The mind has power over the body. For a person to think he has a disease will often produce that disease. This we see effected when the mind is intensely concentrated upon the disease of another. It is found in the hospital that surgeons and physicians who make a specialty of certain diseases are liable to die of it themselves, and the mental power is so great that sometimes people die of diseases which they only have in imagination. We have seen a person seasick in anticipation of a voyage before reaching the vessel. We have known a person to die of cancer in the stomach when he had no cancer or any other mortal disease. A blindfolded man slightly pricked in the arm, has fainted and died from believing that he was bleeding to death. Therefore, well persons, to remain well, should be cheerful and happy, and sick persons should have their attention drawn as much as possible from themselves. It is by their faith men are saved, and it is by their faith that men die. If he wills not to die, he can often live in spite of disease, and if he has little or no attachment for life, he will slip away as easily as a child will fall asleep. Men live by their souls and not by their bodies. Their bodies have no life by themseves; they are only resources of life—tenements of their [illegible]. The will has much to do in [illegible]uing the physical occupancy [illegible]ing it up.

[illegible]rmation concerning Rush [illegible]itted to bail yesterday was [illegible]. He plead guilty and was [illegible] to a term of one year in Laramie, Wyoming territ-

CHEMISTS HAVE ALWAYS FOUND

DR. PRICE'S CREAM BAKING POWDER

The Most Perfect Made.

A PURE FRUIT ACID BAKING POWDER.

There is none stronger. None so pure and wholesome. Contains no Alum or Ammonia.

Has been used for years in a million homes. Its great strength makes it the cheapest. Its perfect purity the healthiest. Prove it by the only true test.

THE TEST OF THE OVEN.

MANUFACTURED BY
STEELE & PRICE,
Chicago, Ill., and St. Louis, Mo.
Manufacturers of Lupulin Yeast Gems, Dr. Price's Special Flavoring Extracts, and Dr. Price's Unique Perfumes.

WE MAKE NO SECOND GRADE GOODS.

Proposals for Flour.

HEAD QUARTERS DEPARTMENT OF ARIZONA.
Office of Chief Commissary of Subsistence.
WHIPPLE BARRACKS,
PRESCOTT, A. T., October 1, 1883.

SEALED PROPOSALS, in triplicate, subject to the usual conditions, will be received at this office and at the offices of the Acting Commissaries of Subsistence at the following named posts, until 12 o'clock, noon, Thursday, November 1, 1883, at which time and places they will be opened in presence of bidders, for furnishing and delivery of Flour, as follows:

Fort Apache, A. T., 20,000lbs; Fort Bowie, A. T., 25,000lbs; Fort Grant, A. T., 70,000lbs; Fort Huachuca, A. T., 63,000lbs; Fort Lowell, A. T., 60,000lbs; Fort McDowell, A. T., 35,000lbs; Fort Thomas, A. T., 100,000lbs; Fort Verde, A. T., 25,000lbs, Whipple Barracks, A. T., 53,000lbs.

Proposals must be accompanied by a bond with two sureties, in the sum of $1000 each and in accordance with the form prescribed. A proposal unaccompanied by such a bond will not be considered. The right to diminish the amount to be purchased at the respective posts is reserved by the Government; and, with the consent of the bidder to whom an award is made, it may be increased. Delivery of one half the amount awarded will be required within forty-five days, and the balance within ninety days after notification of award. No bids will be entertained unless samples be furnished, which should not be of less weight than 12 pounds, so marked as to be easily identified, and should reach this office on or before the date for opening bids. A standard sample of flour of the quality this advertisement contemplates will be furnished bidders on application, which application should be made at the earliest practicable date. The Government reserves the right to reject any or all proposals.

Blank proposals, bonds, and full information as to the manner of bidding, conditions to be observed by bidders, and terms of contract and payment, will be furnished on application to this office, or to the Commissaries of the posts.

Envelopes containing proposals should be marked "Proposals for flour at——" and addressed to the undersigned, or to the Commissary at the post.

Estray Notice.

TAKEN UP on my premises, nine miles northwest of Phoenix, on October 19, 1883, one black horse with a few white hairs mixed, sway backed, and saddle-marked on both sides; is about four years old and 15 hands high. A few white hairs in center of forehead. No brand visible. Owner will please come forward, prove property, pay charges and take the same away, or the same will be disposed of according to law.

Oct. 19-10 d. SAMUEL FRANKLIN.

Dr. ALLEN'S
PRIVATE DISPENSARY,
26 ½ Kearney Street San Francisco, Cal.
ESTABLISHED FOR THE SPEEDY CURE OF CHRONIC, NERVOUS AND SPECIAL DISEASES.
THE EXPERT SPECIALIST.
DR. ALLEN, AS IS WELL KNOWN, is a regular graduated Physician, educated at Bowdoin College and University of Michigan. He has devoted a lifetime to the study of the treatment and cure of diseases within his specialty,
YOUNG MEN
And MIDDLE-AGED MEN, who are suffering from the effects of Youthful Indiscretions or Excesses in maturer years, Nervous and PHYSICAL DEBILITY, Impotency, LOST MANHOOD, confusion of ideas, dull eyes, aversion to society, despondency, pimples on the face, loss of energy and memory, frequency of urinating &c. Remember that by a combination of medicines of great curative power the Doctor has so arranged his treatment that it will not only afford immediate relief but permanent cure.
My Hospital Practice
(Having been surgeon in charge of the leading hospitals) enables me to treat private trouble with excellent results. I wish it distinctly understood that I do not claim to perform impossibilities, or have miraculous or supernatural powers, claim only to be a skillful and successful Physician and Surgeon, thoroughly informed in my specialty—Diseases of Men.
All applying to me will receive my honest opinion of their complaints—No experimenting. I will guarantee a positive cure in every case I undertake, or forfeit $1,000. Consultation in my office or letter rare and strictly private. Charges reasonable. Call or address
Dr. ALLEN,
26½ Kearny street, San Francisco, Cal.
Office hours 9 to 3 daily, 7 to 8 evening.
o20-1y-tf

Estray Notice.

TAKEN up on my premises, on October 1st, 1883, two mares with colts, one branded A, the other without brand or mark. Owner can have the same by proving property, paying damages and charges.
