The Pioneer Press, with its characteristic meanness, represents that a respectable party visited Lake Oka on Sunday and lost a large sum of money. As Col. Knapp does not lose irreparable parties at his place, the P. P. reporters are excluded, and hence they seek revenge by misrepresentation. It is clear that the parties were not at Lake Oka, and would not have been permitted to be there. Col. Knapp aims to have none but respectable people at his charming resort.

The National Life Insurance Company of America have appealed to the United States supreme court in the case of Albert Schaffer, George B. Finch and Charles Nel-on, as executors of Charles Schaffer, deceased, for the recovery of an insurance policy recently decided by the State supreme court adverse to the company. As security in the appeal, the company filed with the State court the sum of \$7,000 in United States 4 per cent. bonds,

instead of giving the usual bond in such case made and provided.

The credit of St. Paul is up, sure. "Mr. Dawson, mayor of St. Paul, had (hardly) signed the bonds he had just been signing," and the \$75,000 had scarcely been advertised, before bids came in for them. Aid. Griggs has received sealed proposals from "away down in Maine" for the same and several others have come in for the worth of their money. The same proceeding will be taken in St. Louis before Judge Treat, United States district judge, so that such cases may come up for joint bearing in the supreme court.

There's a little satisfaction around federal headquarters, United States custom house, over the honor done one of their members. United States District Attorney W. W. Billson has been endorsed up in Duluth for Governor. Every official in the building has a copy of the Duluth Tribune and it is deeply ink marked at that place, where Mr. Billson is highly endorsed for the big gift in the power of the people of Minnesota to bestow. The edition of the Tribune for last night has been largely increased by orders for copies, and everybody over there, in the custom house, are in high good humor over this bare mention of the prospect in the far future.

A singular instance of human stupidity and animal instinct occurred in this city on Sunday last, the details of which may point a moral if not adorn a tale. At 2 o'clock in the afternoon one of Dr. M. H. Anderson's men, in the act of leading a horse to the watering trough, when, becoming impatient at the animal's progress, he pulled violently at the halter strap which was attached to the horse's head and nostrils. The animal became infuriated at the rough treatment, and suddenly seized his impudent master by the shoulder, and threw him to the ground, where he manifested his contempt by repeatedly springing the man over his head and nostrils, and in the latest kind of rough-and-tumble punishment without attempting serious injury. The huster was finally permitted to regain his feet, visibly impressed with the relative and salary treatment.
