What The Late Race Riots Actually Mean.

The North and South Carolina race riots, the incidents of Pana and Virden, Ill., and the late mass-meeting of the Negro in the North in which they have come to the front, to explain and to tell, that a lie can not live; like a cheek drawn against nature's bank, says Carlyle somewhere, it is sure to come back with the indorsement "No Effect." For over a generation the nation has been fed on the lie that the sense of humanity and democracy rebelled against chattel slavery.

That the lie now comes back like a protest check. Capitalism already powerful in the North needed the liberation of the Negro slave.

Free competition; in a law of capitalist development, I think the laborer is hampered, without the capitalist growth.

The capitalist of the North veil themselves behind the veil of humanity and democracy, and I believe that on these lines it freed the Negro, and today the Negro freed, is a wage slave along with the white working class at the present turning of the lane. The interest of capitalist demand the subjugation of the working class-Negro and otherwise, regardless of race, creed or nationality. But as I believe not this spectacle alone is worthy of note in this connection. It is not the Negro that was massacred in the Carolinas. It was Carolina working men, Carolina wage-slave, who as I believe happened to be colored men.

And not as a Negro must we rise in indignation threat if we do we only yield to an industrial and social lie that places him in the wrong, and seems to condone outrage on others, and that must or will be futile.

It is as working men, as a branch of the working-class that the Negro must denounce the felonies. Only by denouncing that cord can be denounce to any purpose, because only then does he place himself upon that elevation that will enable him to perceive the source of the specific wrong that he complains of now.

I say then, that the Negro is today, that the slave was yesterday. The Poole will be tomorrow, the Irish some other day, the German is now, the American is all the time butchered by the capitalist class in many a thousand ways.

And it is a working man that they suffer. The cause of each is the cause of all. Not that by standing isolate, but by joining hands as a class, not by begging but by striking hard at the capitalist.

La Grippe Successfully Treated.

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexico, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" For sale by all Druggists.
