## TEMPERANCE WORK.

Meeting of the State Convention of Prohibitionists.

The second state prohibition convention met in Market hall yesterday morning at 10 o'clock. The meeting was called to order by Rev. J. F. Chaffee. Mr. E. R. Latson then followed with selections of Psalms and prayers. A hymn was then sung, several committees were elected, after which Mr. Chaffee read a letter which summarizes the work of the convention.

First—It was very respectable portion of the people request by petition that the legislators submit to the qualified electors of the state a special amendment to the constitution, it is not a fair proposition to go before the people with this question and let the popular vote settle it?

Third—Ought there to be any need of a legislative committee to determine the quality of the next legislation? Is it not the part of the best government to let the people have a voice in the law? We will readily see that if these petitions are conceded by the parties, the matter of temperance is at least so far as constitutional prohibition is concerned, will be separated from party politics, and every man who is either Rep or Dem, will be free to vote his own personal convictions in regard to this subject.

Mr. Chaffee informed the convention that he had received a petition from the Temperance Committee, and that the Democratic committee declined to have anything to do with the matter whatever.

The rest of the business of the convention was of little importance consisting mostly of addresses by local and visiting prohibitionists. The convention adjourned at an early hour.
